MBCA Uniform Policy

At Mater Boni Consilii Academy we desire to create and promote an environment of learning where clothing is not a distraction to the educational process.

Students at MBCA wear uniforms for the following reasons:

- They eliminate distractions, e.g., students concerned about what they or others look like.
- Uniforms 'equate' the classroom, so all students have an increased sense of friendship and participation which is not based on superficial distinctions.
- They bypass complex clothes codes; many schools are opting for uniforms just to avoid the headache of deciding on and enforcing what students can or cannot wear.

Benefits of School Uniform

1) Interconnection and Egalitarianism

- i. MBCA Understand that school uniforms mean that all students wear the same clothing. This removes any prejudiced ideas about what to wear, allowing for greater group unity and harmony. As a result, uniforms demonstrate a clear message of equality.

2) MBCA Identity

- i. When students see their friends wearing the same uniform as them also encourages them to develop a stronger concept of group uniqueness. As such, school uniforms allow students to feel part of something bigger than themselves.

3) Increased Safety

- i. School uniform help MBCA faculty and school administrators identify who is a student and who isn't. Likewise, staff and students can soon identify anyone on the school grounds without a uniform as an outsider. Increased safety is also a reason why school uniforms are good for field trips, church as well as on-site learning.

4) Dress Code Equality

- i. School uniform avoid a lot of this policing by creating a standardized dress code that's easy for all children to follow. Without any possibility of misunderstanding what is and isn't appropriate, children won't spend time awaiting decisions about their clothing choices and will be in the classroom learning instead.

5) Reduced Potential for Bullying

- i. While wearing a school uniform creates a sense of community and equality, allowing students to choose their own school clothes can create divisions and highlight disparities or bullying opportunities. School uniform help to reduce the chance for bullying, for this requiring that everyone wears the same uniform every day.

6) Less Distracting Learning Environment

- i. When fashion trends and keeping up with their friends, in the style stakes becomes more of a priority than paying attention in class, a student's progress could easily suffer. By eradicating fashion as a distraction, school uniforms help keep students focused on their work.
